MetaEdit+® Service Descriptions and Pricing

Service   *Price*

MetaEdit+ Maintenance Program

MetaEdit+ Maintenance Program is a comprehensive maintenance and support service for MetaEdit+® software. The service includes access to all minor and major upgrades as well as full e-mail, webmeeting, and phone support.

MetaEdit+ Starter Kit   3450 €

The Starter Kit provides you with the tools and expertise you need, in one easy package. Together with one of MetaCase's experts you will build the first version of your DSM language and generators in just 2 days. You get as many MetaEdit+ licenses as you need to develop and pilot the language for a 3-month starter period.

MetaEdit+ Modeler User Training   4000 €

Designed to meet the needs of organizations new to DSM, this 2-day program assists users in getting started with MetaEdit+® Modeler.

MetaEdit+ Workbench User Training   2000 €

This on-site intensive 1-day program is designed for MetaEdit+ Workbench users and covers language and code generator development. Advanced concepts and techniques are also explored along with client specific topics.

Custom Training / Consulting   QUOTE

A wide range of custom training and consulting services are available. Please contact MetaCase to discuss your organization's needs.

Turnkey Development Services   QUOTE

MetaCase can implement a complete turnkey DSM solution capable of generating full production code based on your organization's requirements. Please contact MetaCase to discuss your organization's needs.

Prices effective January 1, 2024.

Prices include shipping and handling, but exclude duties, taxes, and other official charges (VAT).

Training prices are based on a maximum of five (5) attendees per session; special rates for larger groups are also available upon request.

Workshop scheduling is subject to availability; remote workshops are available.

Prices exclude travel and accommodation fees.

All specifications and prices are subject to change without notice.
